EDUCATION **Indiana University**
PhD, Program in Neuroscience August 2011 - December 2017
University of Nevada, Las Vegas
B.S., Biology, Biomathematics August 2011

LABORATORY AFFILIATIONS **Intramural fellow at the Laboratory of NIMH director, Integrative Neuroscience section, National Institute of Neurological Disorders and Stroke**

PI: Joshua Gordon February 2018 - present

- Tetrode and multielectrode array intracranial, extracellular recordings from awake mice
- Closed-loop optogenetic stimulation in T-maze
- Development of integrated, automated data collection and analysis tools
- Development of code for multiple teams
- Training of junior personnel

Indiana University

PI: Christopher Laphs August 2014 - December 2017

- Tetrode and multielectrode array intracranial, extracellular recordings from anesthetized and awake rats
- Data analysis: state space, spectral decomposition, machine learning
- Development of automated behavior and electrophysiology collection tools
- Computational modeling of biological processing in collaboration with A. Kuznetsov and B. Gutkin

PI: John Beggs August 2011 to August 2014

- Statistical analyses of in vitro 512-electrode array data from mouse/rat hippocampus (collaboration with Litke lab, UC Santa Cruz), in vivo Utah array primate data (collaboration with Hatsopoulos lab, U. of Chicago)
- Transfer entropy, mutual information, community detection

RESEARCH PROJECTS **Closed-loop excitation of hippocampal terminals from prefrontal cortex**
Stimulation of ventral hippocampal inputs to mPFC using hippocampal theta oscillation in real time to change working memory performance

Cortico-hippocampal interactions in the radial arm maze
Characterizing the process of planning in delayed spatial win-shift task using optogenetic inhibition of HC, electrophysiological recordings, and machine learning

Effects of ethanol on interactions between VTA GABA and DA neurons and mPFC

Dissecting local and distal dynamic connectivity of ventral tegmental area using dual-site single-unit recordings, optogenetic stimulation, and pharmacological manipulations as a part of France-USA computational modeling collaboration

SKILLS

Programming and data analysis

- Python, Matlab, C, git, bash
- Virtualization using Docker containers
- Continuous integration, unit testing
- Databases: Datajoint, MySQL, xarray
- Data visualization: matplotlib, seaborn
- Dashboarding: holoviews, altair
- Stand-alone, static websites with visualizations

Real-time processing

- Linux OS (including realtime), Open Ephys, Arduino

Experimental neuroscience

- Awake behaving/anesthetized extracellular electrophysiology
- Optogenetics
- Stereotaxic surgery

PUBLICATIONS

Padilla-Coreano N, Canetta S, Mikofsky R, Alway E, Passecker J, **Myroshnychenko MV**, Garcia-Garcia AL, Warren R, Teboul E, Blackman DR, Morton MP, Hupalo S, Tye KM, Kellendonk C, Kupferschmidt DA, Gordon JA (2019) Hippocampal-prefrontal theta transmission regulates avoidance behavior. *Neuron*, 104(3), 601-610.e4.

Tutor

September 2009 - May 2009

Responsible for coaching students on various subjects including biology, writing, and mathematics.

SUMMER SCHOOL ATTENDANCE	The Neuropixels course (UCL)	March 2019
	<ul style="list-style-type: none">• Spike sorting massively parallel recordings• Hands-on experience with Neuropixels probes	
	Computational Sensory-Motor Neuroscience (CoSMo)	June 2013
	<ul style="list-style-type: none">• Northwestern University, organizer K. Kording and G. Blohm• Machine learning, Bayesian and neural net approaches to decoding	
	Collaborative Research in Computational Neuroscience	July 2014
	<ul style="list-style-type: none">• Berkeley summer course in mining and modeling of neuroscience data, organizers Jeff Teeters and Fritz Sommer• Machine learning, statistics	
	Scholarships and grants	
	<ul style="list-style-type: none">• University of Nevada, Las Vegas Scholarship	November 2009
	<ul style="list-style-type: none">• Community College of Southern Nevada Scholarship	November 2008
	<ul style="list-style-type: none">• Federal SMART grant	2009 - 2011
